# PROCEDURES FOR SPARE PARTS REQUEST

Dear Partners,

to support you in the fastest way we kindly ask you to follow the procedure detailed below regarding the technical support and spare parts requests:

## TECHNICAL DEPARTMENT SUPPORT

 **Head of technical department:** Mr. Paolo Romanelli

 **E-mail:** [service@miglionico.net](mailto:service@miglionico.net)

 **WhatsApp:** +39 3427835678

## LIVE TECHNICAL SUPPORT REQUEST

To request live technical support please reach out to our technical department by email or WhatsApp message to arrange an appointment prior to the intervention to ensure Mr. Romanelli availability on that day and time, attaching a video or photos to your request.

## MAINTENANCE SUPPORT REQUEST

To request maintenance technical support please proceed as follows:

- 1) send an email to [service@miglionico.net](mailto:service@miglionico.net) attaching photos/video and an explanation of the issue experienced;
- 2) mention the serial number of the unit;
- 3) list the tests you have already performed.

## SPARE PARTS ORDERS

To order spare parts, please send an email to [service@miglionico.net](mailto:service@miglionico.net) mentioning the item code that you can find on the Spare Parts Price List and the unit serial number for spare parts under warranty.

For not under warranty spare parts, you will receive a proforma-quotation from your sales manager or our service department, which you will need to accept and send back signed/stamped, together with a swift advance payment (or otherwise agreed). The order will be processed ONLY after your quotation acceptance.

## COMMERCIALIZED SPARE PARTS AND OPTIONALS AFTER INSTALLATION

Keep in contact with your sales manager to ask for a quotation / purchasing order.

## FEEDBACK

For any further comment or suggestion regarding technical issues, send an email to [service@miglionico.net](mailto:service@miglionico.net). Your feedback will be highly appreciated to help us improving our product performance development.

Thank you for your kind cooperation.

The warranty period is 12 months from the installation date and grants replacement of spare parts, except parts subject to wear, such as suction hoses and tips, syringe tips, scaler tips and upholstery cuts.

The repair or replacement shall not benefit from a new warranty and therefore the original warranty period shall apply to the repaired/replaced component.

The warranty extension period of three years shall apply only upon receipt of the “installation, testing and warranty declaration”, duly completed and signed and sent to Miglionico within 30 days from the installation date. Failure to return the “installation, testing and warranty declaration” duly completed will result in the loss of the warranty extension’s right, besides preventing Miglionico S.r.l to trace the dental unit as per legal obligation.

For the first year Miglionico grants to supply all components and spare parts. From the second year Miglionico grants to supply all components and spare parts manufactured in its factory, except handpieces, PC, computer displays, suction systems, MDS disinfection system and lamps.

Spare parts not manufactured by Miglionico follow their own manufacturer’s warranty conditions.

Any claims or disputes is governed by Italian law and submitted to the exclusive jurisdiction of BARI (ITALY) court.

## WARRANTY EXCLUSIONS

Warranty becomes null and void in case of:

- Failure to return the “installation, testing and warranty declaration” duly completed;
- If any product is repaired or modified by technicians other than Miglionico authorized service personnel;
- If devices external to the unit’s manufacture are applied;
- If the product is damaged by negligence, improper use, tampering, changes to the product or the serial number, accidental causes, faults resulting from connections to voltages other than those indicated or to sudden changes of the voltage to which the device is connected, as well as faults caused by infiltration of liquids, fire, inductive / electrostatic or discharges caused by lightning, over-voltage or other phenomena external to the device.

## LIMITATIONS OF MANUFACTURER LIABILITY

Miglionico S.r.l. is not liable for causing harms to persons, animals and property due to improper use not in accordance with the instructions provided in the user manual.

## WARRANTY EXPIRY

After the warranty period, costs of spare parts and technical intervention will be charged accordingly. Please contact our Technical Support Department either calling +39 080 759552 or sending an email to [service@miglionico.net](mailto:service@miglionico.net) to get original and guaranteed spare parts.
